

Commentary on Genesis 2 Martin Luther

**In his "Dear Genesis" Luther proved that the free Evangelical religion he taught was not new, but as old as the first book of the Bible, and that it does not consist in outward forms, organizations and pomp, but in true faith in Christ in our hearts and lives. Genesis contains the only historic records accessible of the first 2364 years of the 4004 years before Christ. It is worthy of study in our day as it was in the days of the Reformation. This, the second volume of Luther's great commentary on Genesis, ... covers chapters four to nine inclusive of Genesis. - Summary by J. N. Lenker**
